

Lynnwood Chamber of Commerce

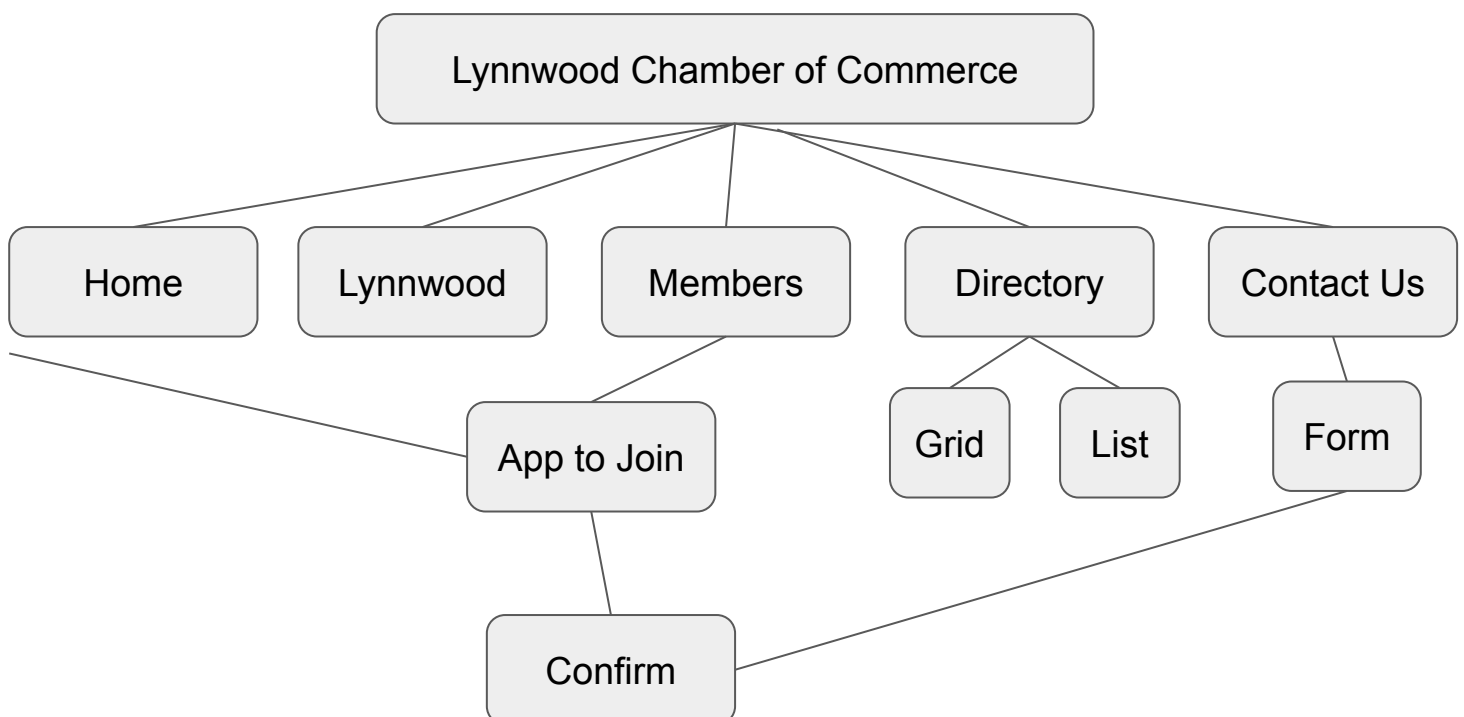

Site Purpose:

This site is to first help support and promote the business and professional communities in Lynnwood. We share the historical path that the city has followed while working together to help the city planners and businesses create a growth process for both residents and businesses to become part of Lynnwood. The site does this through: advocacy - helping new businesses with networks and support; leadership - learning and sharing how to grow businesses; education - teaching new ways for business to reach their clientele; and community-building events - that will help business leaders, city leaders and community members meet and get to know each other.

Target Audience:

Small business owners, members of the community, and city government. Each of these groups are interested in the health of the community. Small business owners and city government members would be more interested in the growth than a community member.
